

# It's time to visit Cochrane's Hidden Gem and see what everyone is talking about!

Recently featured in *Where Magazine*, Just Imajan Art Gallery is nestled between the Blue Dog Cafe and Global Pets in the Graham Building in beautiful historic downtown Cochrane.

Owner, Janet B. Armstrong, always dreamed about owning her own gallery and achieved that dream four years ago.

Just Imajan Art Gallery is a welcoming, fun place with something for everyone. Be sure to pop into the rear studio where paintings are always being created.

From bright paintings, big and small, there are originals and commission works to please all. You can even take your painting home overnight to make sure it will work in your space.

What's better than a sleep-over to make sure your painting fits your decor and of course that the painting is happy in your home?

Cochrane's own Jack Tennant has joined Janet Armstrong to create a group of photo-giclees.

### **What is a photo-giclee you ask?**

In this case, it is an original Jack Tennant photo on canvas embellished with acrylic paint by Janet Armstrong.

And... all done the old-fashioned way. The photo from film and the paint by brush.

The giclees now come with a pocket to hold the original negative that guarantees that you have the only copy. The **Jack & Janet** originals will enhance your home or office and will be a conversation piece for years to come.
